

Dear Hiring Manager,

My name is Saikat Das, and I recently completed my B.Sc. in Computer Science from Ahsanullah University of Science and Technology. I am interested in software engineering and AI-related roles where I can apply my programming and machine learning skills to real-world problems.

I have experience working with Python, machine learning, and deep learning frameworks such as TensorFlow. In my recent work, I trained several CNN models for image classification and explored model optimization techniques for efficient deployment. Through these projects, I gained practical experience in model training, evaluation, and performance analysis.

I enjoy building systems that combine programming, data, and intelligent algorithms. I am motivated to continuously learn new technologies and improve my engineering skills in a professional environment.

I would welcome the opportunity to contribute to your team while further developing my skills as a software engineer.

Thank you for your time and consideration.

Best regards,

Saikat Das
